

## 2010 BioHaven® Floating Island Sizes and Shapes

A variety of standard island sizes and shapes are available from 25 to 400 square feet. Standard islands are 8" thick and will only support the weight of plant life. Standard islands are generally priced at \$32 per square foot.

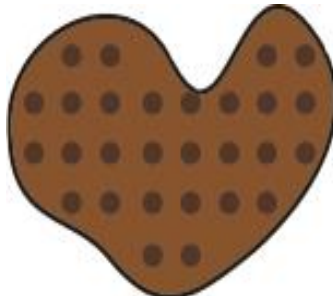

Shipping, planting mix, installation, plants, anchoring and design consulting are not included in the price.

Custom islands can be built to any size, shape, thickness, and buoyancy. Pricing for custom islands will be at a minimum of \$3 per sq. ft. more than the standard island. Custom walkways and decks can be built with design approval. Please call for specific pricing for your project specific design specifications.

Standard island images are depicted below for illustration purposes only and are not exact. Not all standard sizes are shown due to space and document size limitations.
